

Protest Disposal Of Nitrate Plants

WINNIPEG, (CP)—A threatened farm economy, coupled with agricultural unrest throughout domestic agricultural circles, predominated in the post-convening issue of delegates to the 11th annual meeting of the Canadian Federation of Agriculture, which ended here Friday night.

Three critical of government policy was heard only once, although suggestions as to revisions were made. The criticism concerned the government's sale of the government-owned nitrate plant at Welland, Ont., to private interests.

Delegates said they had commended the earlier sale of the Calgary plant to the understanding of the Welland plant would be maintained by the government.

Behind the protest was the fear that both plants in private hands would be sold to the United States, which has been buying Canadian nitrates since the war.

Alberta Accepts Ottawa Tax Terms

(Continued from Page 1)

The province was collecting from the personal income and corporate taxes for the year 1946. Under this formula the amount which Alberta will receive annually is \$2,000,000 more than the province would have obtained under the London's previous offer, which the Alberta government rejected as unsatisfactory.

While the government has been promising to collect from the provinces and sections of the press for rejecting the dominion's offer, the province of refusing to be stamped into a premature agreement has been confirmed by the substantially increased amount which the province will receive under the new formula which would have been permitted to deduct from taxes there has accepted the dominion's earlier proposal.

Under the new formula, the amount Alberta will receive from the personal income tax in 1947 is over \$8,000,000 more than it would have received under the previous formula. The province will also receive \$1,000,000 more from the corporate tax.

By H. R. Hardy

OTTAWA.—Recent increases in the price of such metals as lead, zinc, copper and aluminum have resulted in the raising of the price of manufactured articles in which these metals are used.

This price rise is not surprising, as the price of these metals has risen in the past few months. The price of these metals has risen in the past few months.

Legislature Uses Recording System

REGINA, (CP)—A recording system of proceedings, was described today by Speaker Tom Johnson as a "unique experiment."

Before he resumed the assembly's approval of the installation which had its first trial last Friday, Mr. Johnson (C.P.C.—Torchwood) described it as a substitute for the old system of stenographers, whose services were at a premium.

CALLS UPON MARSHALL TAKE FIRM STAND

WASHINGTON, (AP)—Senator Styles Bridges (Rep., N.H.), charging Stalin's aim to turn Germany into a "satellite and ally" called upon state Secretary Marshall Friday to stand firm at the Moscow foreign ministers' conference.

"If Moscow succeeds in the great design of merging Russian, American and German technical disciplines, the last chance of a free democratic civilization will be lost," Bridges told the United States senate.

NEW DOMINION CONCESSIONS Hinted in Old Age Pensions

By H. R. Hardy

OTTAWA.—With a definite promise coming out of the government's speech from the throne that the government intends to amend the old age pension act, speculation has started on how far the dominion is prepared to go in providing social security of this kind.

If the proposals made by the dominion to the dominion-provincial conference in 1946 is any indication, a lowering of the age limit from 70 to 65, elimination of the means test, and a possible upping of the actual monthly pension is envisaged.

Hamilton, St. Mike's Dominate Ont. Hockey

TORONTO, Feb. 1-(AP)—This being the first day of February, senior and junior "A" clubs of the Ontario Hockey Association suddenly realized the play-offs are rapidly approaching.

ALL WINTER the redoubtable Hamilton Tigers have led the five team senior league. They have lost just one out of 18 games played. All winter the power-packed Toronto St. Michael's Majors have paced the Junior "A" circuit, a 10 team group. St. Mike's record is two losses out of 30 but this is the point standing which gives four points, or two games, in occasional encounters.

No one doubts that it will be the Hamilton Tigers and Toronto St. Mike's who will represent the Ontario in the arduous struggles towards the Allan and Memorial cup finals. But they still have to wind up the schedule and then go through the play-offs, and in playoff series anything can happen.

Four of the five senior teams will start play-offs at the end of February. At the moment the Tigers are first with 34 points. Owen Sound Mercurys and Hamilton Patriots are tied for second with 25. Toronto St. Michaels are fourth with 14. But the tail-end stretched into the Strathroy and St. Catharines.

SIX OF THE TEN Junior "A" clubs get into the playoffs. Right now the standing shows St. Mike's with 36 points, Galt Red Wings 44, Oshawa Generals, Stratford Krochlers and Toronto Marlboros all with 33, and Barrie Flyers in sixth place with 36. Those six clubs would appear to be the play-off contenders, for there's a gap of 18 points facing the seventh place Barrie Flyers at 18 points. The Toronto St. Michaels have 14, Hamilton St. Catharines 12 and Toronto Young Rangers 8.

Musial Holds Out For Double Salary

NEW YORK, Feb. 1-(AP)—After two conferences, Stan Musial, the National League's champion batter last year, and Sam Breadon, owner of the St. Louis Cardinals, were still far apart Friday with the slugger first baseman demanding a 100 per cent increase over his 1946 salary.

Musial, whose mid-season switch from the outfield to first base and his sensational play at that strategic position for the balance of the season, plus his .363 batting average, earned him the league's most valuable player award, said he and Breadon planned another contract confab tomorrow and hoped they would come to an agreement.

Musial refused to divulge his asking price but remarked "I would be about twice as much as I received last year." Stan did not say how much he wanted.

"Right now the U.S. caliber of play among the pros is better, much better," said Musial. "This winter in America has taught us one thing: The English players must develop the ability of rolling three into two, like you do over here."

"When our men get close to the green they think of a chip and two putts. Our men never think of anything but a chip close to the pin and one putt, we'll have to change our way of thinking."

THE MONTANA club will travel by Western Airlines and the Bears intend to fly to Regina and Billings for contests Feb. 25 and 27.

Edmonton Flyers Set for Regina

Edmonton Flyers, who have been invited to play tonight in their last three outings, will bump into the "Cat" Franks and Co. from Regina here tonight in a Western Canada Senior Hockey League encounter — and they declare their luck has reached the horizon point.

Franks, the Regina net custodian who is rapidly becoming famous, was a major factor in Flyers' defeat by the Regina Capitals last week, and he caused the league-leading Calgary Stampede more than a little worry last night before they emerged in a 2-1 win.

COACH RILEY MULLIN has three complete forward lines to throw into the battle. They are Kreider, Stanley and Pryde, which will probably be his starting line-up. Malher, Thomas and Dwyer, and Newcome, Black and Merlik.

Flyers have been training diligently since their unsuccessful road trip and they were pronounced in fine fettle for tonight's engagement by Mullin.

Plan Use Vaccine In Nurses Schools

The tuberculous vaccine bacillus calmette-guérin appears to "confer increased resistance" to the disease, and may soon be recommended for use in nurses training schools in Alberta, according to Dr. A. H. Baker, superintendent of Central Alberta Sanatorium, Calgary.

It is administered only to those who do not react to the tuberculin test, since the effect of the vaccination is to produce a reaction. It is believed that reactions to tuberculin in many instances have a higher resistance than non-reactions.

Tests have been carried on in Denmark for many years, and a new program there calls for vaccination of all school children between the ages of ten and fourteen in Russia, in districts where there is a high incidence of tuberculosis.

New Varieties In 1947 Seed Book

The 1947 seed catalogue of the Dominion Seed House of Georgetown, Ontario, containing many new varieties of flower and vegetable seeds including several strains highly recommended for the short-season western gardeners. It is again in short supply this year and what stock they have is being sold for premiums offered with special combination orders.

Amongst the 25 varieties of tomatoes listed is included a new extra early non-staling strain developed for the West. A new vegetable, Celery, combines the flavor of lettuce and celery, and can be used as either and served raw or cooked. Two of the imported and exotic vegetables are Chinese Salad Beans, green indoors or outdoors, and the Persian Vegetable Spagetti which comes in large fruit-like pods on a bush.

Many new flowers include Double Fringed Petunias, Double Lily of the Valley, New Orchid Iris from Siberia, Tulipwood Iris from Double and Fringed Begonias, new and resistant Giant Anemones, new types of Shrub Geraniums and the new Beautymint that are said to produce up to a thousand blooms on one bush.

Amongst their large variety of fruit trees and bushes is the Luscious Strawberry producing fruit right weeks from planting of seeds. Early varieties of the Dewberry, Raspberry, Gooseberry and several kinds of currants are offered.

Dwarf roses for pot planting, Hybrid and Climbing roses are in good supply in all the lovely popular shades. All in all the Dominion Seed Catalogue holds something of real interest for every gardener, professional or amateur.

ELECTRIFICATION HALTED STOCKHOLDERS (CP)—Because of labor and material shortages, all state railways will halt July 1, according to newspaper reports. Swedish state roads have a length of about 1800 miles, of which 2,900 are electrified.

Prayer Services in Edmonton

At Edmonton Gospel Temple

Prayer Services Held For Healing of Sick

By Helen Ferris

Alternate weeks of evening prayer commencing at 8 p.m. Monday through Saturday, and frequent daytime sessions, are being conducted by the congregation of the Edmonton Gospel Temple and students of the Temple Bible College for healing of the sick.

IT IS THE FIRM conviction of the pastors, the Rev. A. W. Rasmussen and the Rev. T. D. Crane, that the power supplied and renewed by the Apostles and Christians of the First Century Church could and would be witnessed in church life today if we would ask God for it. This includes restoration and a sanctified life for the believer, divine healing for the body, and the baptism of the Holy Spirit, providing the church with spiritual gifts.

Because of these deep convictions, days and weeks are devoted to prayer, especially for the healing of the sick and infirm. Letters requesting prayer have come from persons in Great Britain and British Columbia as well as Alberta, and from residents of the city.

THE PRESENT congregation of the Edmonton Gospel Temple has grown to form about two years ago under the leadership of Pastor Rasmussen of Chicago. The church was joined in this by Pastor Crane of Edmonton a little over a year ago. The church was incorporated only last February.

A Bible college, offering a three years course of study, was organized in 1945.

TODAY'S MESSAGE

Love and Friendship

The two greatest gifts man can possess are love and friendship. Money and talent are things of worldly success, but no success is worth the price if it excludes the joy of friendship or the inspiration of love. Without these, we cannot, in fact, really live.

Friendship is the light of the sun, and love is its warmth. Consider what it would mean to be exposed to the trials and struggles of life without a friendly voice to cheer us on; to suffer heartaches and horrors without the consolation of knowing that there is always someone to whom we can turn for healing love.

To be loved and to have friends is not, however, a one-sided matter. There is a law of reciprocity in life which says that unless we give we cannot receive. That is why the richest measure of love and friendship is enjoyed by those who are themselves generous of heart. That is why the loneliest and most unhappy people are frequently those who are the least friendly, the least concerned about the welfare and happiness of others.

"He that loveth his brother," says Scripture, "abideth in God." These words reveal the sublime wisdom of expending ourselves in love, of helping to lighten the burdens of the unfortunate, of being friendly to all who seek encouragement and support. We know from the lessons of religion that the holiest persons are those who seek the friendship of God by being friendly toward His creatures.

To love God and man is the whole law of Christianity. It is a law which demands much in patience, kindness and service, but which assures to all who are prepared to sacrifice themselves for the good of their neighbors a high reward in the love they draw from themselves.

A CRIME WAVE

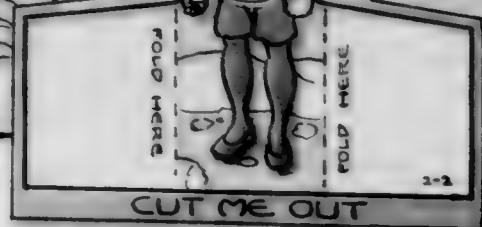

AFTER Ginky's eviction from the grocery cellar where he had been living in luxury he became terribly embittered. He joined two unscrupulous mice and began a "tricks or treat" racket among the mice of the neighborhood. The three rascals would go to a respectable mouse's home and threaten to do it damage unless they were fed. They spread terror among the respectable mice and a number of the best mouse families moved out of the district.

The Teenie Weenies had seen very little of the racketeers, for Ginky knew the little people would not stand for his bad ways. But being puffed up over his success in frightening the timid mice, he boldly began annoying the Teenie Weenies. The bandits always came around at night when the Teenie Weenies were in bed and they did nothing more than steal the garbage from the garbage thimble on the back porch of the shoe house. The little folk didn't mind that because it saved them the trouble of burying it. Then one night Ginky and his gang brazenly broke into the Teenie Weenie town hall, and the little folk put a stop to their wickedness.

While the Policeman was making his last rounds of the Teenie Weenie village before bedtime he noticed several mouse tracks in the snow. They led to the old felt hat which the little people used for a town hall. The place was dark, but he saw that one of the windows had been broken out and the hole had been stuffed with a Teenie Weenie rug. He could plainly hear mouse snores and he went to the shoe

house for help. Followed by a number of Teenie Weenies, the Policeman returned to the hall and quietly unlocked the tiny door. By the light of a Teenie Weenie lantern, they saw Ginky and his two friends asleep on the floor.

"Grab 'em!" shouted the Policeman.

Before the mice could rub their sleepy eyes, the Teenie Weenies were upon them. Ginky made a dash for the door, but the Dunce tackled him. In the fight that followed, the roof over the doorway was knocked

off, the Dunce got a black eye and lost an arm of his sweater. The Dunce and the Policeman finally subdued Ginky. One mouse escaped after a good whack from a broom in the hands of the Turk. The other mouse tried to escape through a window but Gogo hung onto his tail and he was captured, too.

The two mice were locked up in the pint fruit jar which serves the Teenie Weenies for a jail, and now there is some law and order in the neighborhood of the Teenie Weenie village.
